

## Pilot trainings on the European Academy on Inclusive Digital Entrepreneurship are upcoming

The Missing Entrepreneurs Project arises with the ambition to build a more inclusive culture towards digital start-ups and support the development of digital and entrepreneurship skills among vulnerable and under-represented population groups in digital entrepreneurship such as women, immigrants, youth and seniors. Currently, we are finalising the establishment of the European Academy on Inclusive Digital Entrepreneurship. It gathers practical training pills and leverages e-learning resources on digital tools available for digital entrepreneurship and digital transformation of businesses. In the coming months, free online trainings will be deployed to enhance digital and entrepreneurial skills of anyone interested in digital entrepreneurship, especially women, immigrants, youth and seniors. Stay tuned and follow our social media for more updates:

## Break The Bias: Powering Women Entrepreneurs

The European Institute of Innovation and Technology (EIT) is the home to a thriving community of women innovators, entrepreneurs and students forging a more inclusive and diverse network of innovation for Europe and beyond. In order to increase the number of young girls in STEM and close the digital gender gap, the EIT launched the “Girls Go Circular” project which is being implemented in eight European countries. Go check it out!

## The 2022 Diana International Research Conference focused on “Women’s Digital Entrepreneurship”

The 2022 Diana International Research Conference that will take place in Dublin, Ireland on June 19-22, 2022, will focused on “Women’s Digital Entrepreneurship”. It will pay attention to how gender and entrepreneurship are conceptualized, understanding of the value of women’s entrepreneurial endeavours, and how perceptions can be changed. During the conference, discussions will be around exploring new research ideas as well as adopting novel methodological approaches.
